TEAM ID	PNT2022TMID23839
Project Name	REAL-TIME RIVER WATER QUALITY MONTORING AND CONTROL SYSTEM
Leader Name	ASHA BAI M
Team Members Name	GEETHASREE S KEERTHIGA P GOWRI S R

The screenshot shows the Node-RED web interface. On the left, a sidebar lists various nodes under the 'dashboard' category, including text input, button, dropdown, switch, slider, numeric, date picker, colour picker, form, text, gauge, chart, audio out, notification, and ui control. The main workspace displays a flow named 'Flow 1' with a 'Temperature Mode' node connected to a 'Lighton' node, and a 'Lightoff' node. A 'get /sensor' node is also visible. The 'Edit http in node' dialog is open, showing the following properties:

- Method: GET
- URL: /sensor
- Name: Name

The 'debug' console on the right shows a series of messages from a device with ID '1d00002' and type 'Microcontroller_Device'. Each message is a JSON object with a 'msg.payload' field containing a number. The messages are timestamped 06/11/2022, 01:41:21 and 06/11/2022, 01:41:22.
